Press Release

Milliman MedInsight Ranked Best in KLAS for Payer Quality Analytics

Seattle – March 4, 2019 – MedInsight, Milliman, Inc.'s highly regarded platform for data warehousing and healthcare analytics, was named number one in the 2019 Best in KLAS: Software and Services report for Payer Quality Analytics. KLAS, a research firm focused on the healthcare IT market since 1996, awarded this honor in recognition of MedInsight's outstanding efforts to help healthcare organizations in their quest to deliver high-value, quality patient care.

Based on thousands of interviews with healthcare organizations conducted by KLAS, the Best in KLAS recognition is only awarded to organizations that KLAS judges to have the broadest impact on healthcare. This year's Best in KLAS report included grades across six targeted customer experience pillars: culture, relationship, operations, product, value, and loyalty.

"We are incredibly proud to have been ranked number one in the Payer Quality Analytics category and to have gotten high marks in so many of KLAS' key customer experience pillars. This independent recognition demonstrates our ongoing focus on helping healthcare organizations maximize their effectiveness and also shows how much we invest in, and value, client success and satisfaction with the MedInsight analytic platform," said Rich Moyer, Chief Product Officer for MedInsight.

Every year, KLAS publishes the Best in KLAS report which ranks healthcare IT solutions across a variety of market segments including software, professional services, and medical equipment. KLAS reviews more than 30,000 interviews with health systems and payers each year to rank the vendors for the report. The Best in KLAS designation is reserved for the leading vendors in each market segment that have the broadest operational and clinical impact on healthcare organizations.

"Best in KLAS is about raising the bar for healthcare technology. It's providers and payers demanding better performance, usability, and interoperability. Ultimately, Best in KLAS is about giving providers and payers the tools they need to facilitate superior care and improved outcomes," said KLAS President Adam Gale.
